CAD Product Designer

First Brands Group, for its wiper division TRICO, is searching a CAD Product Designer. The position is based in the Manufacturing and R&D center located in Aubange – Belgium. Our team of around 200 people designs, develops and manufactures wiping solutions for the original equipment of the world's leading car manufacturers.

Reporting to the Application Manager, the primary function is to develop and design new products and components of wipers, according to internal and customer's requirements and specifications.

Position main activities :

- Study and develop new products using Computer Aided Design system ;
- Perform detailed drawings that will be needed to achieve manufacturing technical aspects ;
- Perform the analyses required to define OE products ;
- Provide CAD files for exchange with customers, sub-contractors and sister plants ;
- Insure data storage and codification ;
- Set in control points, tolerances and characteristics to monitor ;
- Prepares drawings and files to release products ;
- Initiate and monitor DFMEA ;
- Participate to the company security, health and environment policy.

Required Skills :

- Technical training (Bachelor, Master) supplemented by 3 years experience in industrial environment.
- Master of CAD tools (Catia V5 – 3D volume/surface development – 2D) ;
- Practice of MS Office softwares ;
- Knowledge of English is a must ;
- Good knowledge of mechanical principle in general, design of products, injected plastic / stamped steel components ;

Trico is offering as well :

- An attractive salary package in line with your experience, including extra-legal benefits and group insurances.
- Holiday package and work flexibility to balance work and personal life.
- Additional training and individual development programs to promote internal mobility and tailored career paths.
